

NASCO's Mission:

To enhance economic development and security along the NASCO Corridor.

- *Economic Development*
- *Job Creation*
- *Security*
- *Efficiency*
- *Supply Chain Accountability*
- *Transportation Logistics*

To become a part of NASCO's successful efforts please visit www.nascocorridor.com

NASCO Purpose

NASCO's purpose is to boost economic development activity while supporting **multi-modal infrastructure** improvements, **technology / security innovations** and **environmental initiatives** along the NASCO Corridor, and to stimulate the dialogue between the **public and private sectors** about critical, corridor-wide trade and transportation challenges.

NASCO is the only trade corridor coalition with tri-national dues paying, public and private sector members.

NASCO Initiatives

- **NAFTRACS: North American Facilitation of Transportation, Trade, Reduced Congestion and Security** – NASCO is proposing a technology pilot project designed to enhance security and efficiency of transportation, trade processing and logistics systems.
- **NAIPN: North American Inland Port Network** - Developing an active inland port network along our corridor to specifically alleviate congestion at maritime ports and our nation's borders.
- **Partnership with the EPA:** (Blue Skyways Collaborative) Principal goal is to improve air quality and reduce air pollution emissions through new technology, market forces, promotion of the use of alternative fuels, and economic incentives.
- **Educational Consortium / Knowledge Corridor:** Bringing together institutions that play a vital role in transportation and providing critical studies and solutions to the ever changing needs and requirements the NASCO Corridor continues to face.

NASCO Conference 2008

The graphic features the GTO Inland Port logo (top left) and the Guanajuato 'CON TIGO VENIMOS' logo (top right). The main text reads 'NASCO Conference 2008' followed by 'June 4 - 6, 2008' and the tagline 'In the beautiful state of Guanajuato, México.' Below this, it states 'Hosted by the State Government and the GTO Inland Port.' A 3x3 grid of images shows various scenes: a cathedral, a port facility, a tunnel, an airplane, a historic building, a modern building, a stone staircase, a shipping container, and an interior hallway. The website 'www.inlandport.com.mx' is at the bottom.
